'Agencia Maritima Nabsa S.A.' (Nabsa) is an independent, privately-owned shipping organization, which since its first days in June 1987 has grown constantly and steadily. Today Nabsa's total staff is comprised of 110+ employees, some of which have seaborne experience. All commercial and operational staff are fully bilingual in Spanish and English.

Nabsa's modernly furnished Head Office is located close to the commercial and banking district of Buenos Aires. Nabsa operates with branch offices on the busy Parana River waterways, namely at San Lorenzo, Rosario and Campana, which are all strategically located in the main Argentine grain loading area. At all other ports, both in Uruguay and Argentina, Nabsa operates through a well experienced and reliable network of 1st class subagents. In this manner, this prestigious shipping agency ensures that its worldwide principals receive the very possible service at all times.

Nabsa's activities as a whole comprise shipping agency for Tramp and Liner ships, operation of a barging service for containerised cargo on the Parana-Paraguay River waterways system, operation of small feeder tankers for distributing imported CPP cargoes within domestic electricity generating plants, chartering of ships for various types of commodities, etc. The volume of vessels handled by AGENCIA MARITIMA NABSA S.A., on a yearly basis, ranges between 600 and 700, with anual port calls exceeding the 1000 mark.

It is Nabsa's goal to maintain its participation in the markets already gained, and at the same time to continue the diversification program that it is presently undergoing. Nabsa's solid financial background allows it to invest whenever and wherever it is necessary.

Nabsa is a member to BIMCO - Copenhagen (Denmark), since June 1988 and it is subscribed to ITIC - International Transport Intermediaries Club Co Ltd (London). Nabsa is 'ISO 9001-2008' certified (by SGS), also 'FONASBA' approved.
